Python

I am Tevfik Şarlak, a highly motivated mathematician who possesses a solid foundation in programming. My academic background includes extensive coursework in Java, C++, and Object Oriented Programming, which have honed my programming skills. I have garnered hands-on experience with Python and currently focused on enhancing my web development capabilities, with the aim of leveraging my skills to explore new opportunities in software development.

Driven by my passion for technology and programming, I aspire to transition from my role as a math teacher to a software developer position. My unwavering commitment to learning, coupled with my proficiency in programming, makes me the ideal candidate for any challenging project or collaboration. I am excited to explore backend technologies and take on web development-related projects that will enable me to apply my skills and knowledge to the fullest.

If you require a highly skilled and motivated professional who is capable of delivering top-notch software development solutions, then look no further. Please consider me for any potential projects, collaborations, or job opportunities.

Work History

2018-09 -
Current

Math Teacher

Bilfen Private High Schools, Antalya

- Developed and implemented lesson plans for range of math courses, including algebra, geometry, and calculus.
- Utilized problem-solving skills to help students understand complex mathematical concepts and improve their analytical abilities.
- Facilitated extra-curricular activities, including math and science competition preparation, resulting in numerous student achievements and accolades.

2010-12 -
2018-08

Math Teacher

Final Private High Schools, Antalya

- Diversified teaching techniques and learning tools help students with differing ability levels and varied learning modalities.
